

KILPISJÄRVI

Accommodation

Stay in fully equipped cabins built in 2007, and enjoy nature of Lapland. Enjoy your stay in our cabins with one bedroom, livingroom-kitchen, sauna, shower room, and an open den upstairs. Each our 52 square meter cabin has also a fire-place, and can accommodate up to 6 persons.

Services

We arrange tailor-made guided tours around the whole year. For example during the winter you can go ice fishing or for a snowmobile safari. You will enjoy the scenery and even have a possibility to see northern lights. And you just can't miss the bright colours of autumn foliage!

Finland's highest tops in the wild far north

Finland's wild northwestern arm – Käsivarsi – has the country's most mountainous scenery. Halti Fell, the highest peak in Finland, can be reached all year round along the challenging Nordkalottleden Trail. Rare arctic and mountain plants and animals thrive amid Käsivarsi's splendid scenery. Grayling and arctic charr rise to the bait in the region's fine fishing waters.
